Yadkin Valley will employ best commercial efforts to provide transmission speeds as defined in the customers selected Broadband Internet plan (between the customer location and the Yadkin Valley's Internet gateway). The actual data throughput experienced by you will be variable and will depend on several factors including the data overhead inherent with IP connections, your location, destination on the Internet, traffic on the Internet, interference with high frequency spectrum on your telephone line, etc. No minimum level of speed is guaranteed. While Yadkin Valley will employ best commercial efforts to maintain service availability, no guarantee is made regarding continuity of the Service, or the ability to log on to the Service.
